

How to find Company listings relevant to you?

The screenshot displays the WWINdow Shopping website interface. On the left is a navigation menu with sections: NETWORK (Recommended for You, Interested In You, My Connections, My 'Interested' List, My 'Skip' List), SCHEDULE (My Schedule, Event Agenda), and MORE (Products, Showroom Listings, Showroom Representatives, Buyers, WWIN Website). The 'Showroom Listings' menu item is circled in orange with an arrow pointing to the main content area.

The main content area is titled 'Showroom Listings' and features several filter dropdowns: Sort: Name, Status, Location, Company Name, Buying Season, Shipping turnaround times, Product Categories Provided: Accessories, Product Categories Provided: Apparel, Product Categories Provided: Footwear, Price Point, and another Price Point dropdown. Below the filters, two company listings are visible: 'A&A International' with a logo featuring a sewing machine and 'ADORE' with a simple text logo.

To find and connect with **specific companies**:

- On the left navigation bar, under the “**More**” section, select “**Showroom Listings**”
- Then select the **downward arrow** to filter by specific types.
- Here you’ll be able to search for specific companies/brands that meet your needs by filtering by product category, average price-point, shipping turnaround times, location & more.
