

# How to chat?

There are two ways to initiate a chat with a buyer.

- You can add a chat message to a meeting request.
- If both participants mark each other as “Interested In”, (as in a buyer marks you as interested\*\*) a chat button appears in their profile.
- Click the “**Chat**” button to initiate a conversation. A box will appear in the lower right of your browser window.

You will receive an email notification if someone sends you a chat, or if someone replies to your chat.

*\*\*Note: You will only be able to chat with a buyer via a meeting request until they have marked you as ‘interested in.’*
